5

1	0%
2	0%
3	4.35%
4	36.96%
5	58.70%

5. I learned new information that I can directly apply to my job?

(Strongly Disagree)

(Strongly Agree)

1

2

3

4

5

1	0%
2	2.17%
3	8.70%
4	43.48%
5	45.65%

6. How do you plan to use what you have learned today?

Useful, Present Information to the Department, improve safety program, following up with presenters for additional information, increase safety awareness, take back to the office, share with other employees and safety officer, add to my knowledge and use in my application of job duties, safety training for employees, to help my employees be safer, notes used in training, different/ new safety meeting topics, tell someone, put it in practice and teach ours the at the job site that wasn't here, pass on to my safety personnel, evaluate on procedures, implement new safety policies, continue to learn safety for work and employees, check safety measures at the office and on site to ensure the safety of staff, by conducting a safety class and using a film, I can use it on my planned safety reviews, working with positive work, strainer, and waste suspiciousness. Recommend purchasing defibrillators and epi-pens for all officers

7. How can we improve these conferences?

More speakers, More diverse topics, more handouts and interactive presentations, full breakfast, more prizes, better breakfast, healthier continental breakfast options, decaf coffee, diet soda and bottled water, have more safety training for office environment as well as safety sensitive departments, workout computer issues, great job, have more vendors, use heater, more visual videos, do net need improving, great conference, provide more info on hard hat safety, examples of you should be warning, Have presenters send their Power points in advance and load them and pre-test all powerpoints in advance of conference.

After handout of all powerpoints. Lavilier microphones for each speakers, lanyard name badges (Don't use pins), conduct at AUM to avoid downtown crime and traffic (better lighting too), mail (not email) a conference flyer to every state department, board and commission.

8. Keeping in mind that we plan 4-6 months ahead, what future conference topics or speakers would you suggest?

Accident Investigation (Root Cause Analysis), Fall Protection, Managing WC, temporary job site set up, Drug and Alcohol testing programs, active shooter training, bad weather training, WC liability issues, Mass Causality, diameter clean up, How to encourage increased employee engagement (buy ins), workplace violence. More speakers that cover local governments, not sure at this time but maybe some topics/ideas to Tammy before next year. Sick buildings (mold, water quality, air quality, OSHA's role and authority in a non-OSHA state (Alabama), Simultaneous tracks: one for construction, one for non-construction. Excellent vendors supported this conference! Awesome lunch.
